10 the Board of Public Works, Owesso:

Gentleman:—

Ani. Walsh presented fo.lowing communications which were adopted, ayes 8, nays 1.

To the Board of Public Works, Owosso:
Gentlemen;—
I hand you herewith map and profile of East Main and Exchange street sewers. By build ng east on Exchange from Hickory towards Dewey, you can secure a depth of 10 feet at Hickory and rouning down to 6 it at a distance of 00 feet.

If you undertake to go out Main, up D. wey and back west on Exchange, you will not be deep enough to drain any cellars on the south side of either street.

The fact is that the sewer as now built is not deep enough to relieve collars, and it should be. In wet districts you may or may not use an under drain. You certainly can get relief by running south on Dewey toward the liver, working west and south to the river. You can get 2 feet of additional depth by so doing and I would recommend that you have this matter looked up and plans made for this change.

Respfy,

Owosso, Oct. 16, '97.

The Board of Public Works, Owosso, Mich.

Gentlemen—The matter of the sewers on West Main, Michigan Ave. and Shiawassee streets, also on E. Main and Exchange streets, was looked into by me and I beg to report as follows:

1st. The sewer on West Main and Shiawassee. The use of brick on a separate system is not to be recommended except in very large sewers and ce tainly not on a 24-inch sewer.

There is no need of building any 30-in sewer on Shiawassee street, as your ultimate Main sewer can be taken on River street to John and thence to Main.

The construction of this Shiawassee street sewer leads to a discussion of the main sewer. It is part of the main outlet sewer of the city, and accordin to the plan, it is to carry all of the sew releads to a discussion of the main sewer. It is part of the main outlet sewer of the city, and accordin to the plan, it is to carry all of the sew releads to a discussion of the main outlet sewer on the grades planned, is not low enough to take care of these laterals. Before much more work is done you should have made a new plan and profile o

of any sewer from Maple Ridge park and vicinity.

I can see no reason for any further work on
this large main. I therefore would recommend:
1st. A double strength 24-in pipe sewer on
West Main and Shiawassee streets.
2d. I would advise putting it at least 3 ft below
the grade shown by Mr. Pierson.
3d. Before it is built I would advise having
your city engineer or some other competent man
prepare a profile and plan of an outlet sewer
which will take all the sewers in your city. The
estimated cost of a 24-in pipe sewer is \$1.72 per
lineal foot, including manholes.

Respfy,
H. E. Riggs.

To the Honorable Mayor and Common Council of the City of Owosso.

Resolved that the committee on fire department be and are hereby instructed to purchase 12 rubber coats for the fire department in this city, and the clerk be instructed to draw an order in payment of same.

Ald. Copas asked where the plans and specifications of the sewer system were.

Clerk reported that they were not to be found, and the mayor appointed Ald. Shaw as a committee of one to look these up.

Upon motion council adjourned.

"For five week I lived on cold water, so o speak," writes a man who suffered

ribly from indigestion.

He could bardly keep anything on his stomach. What staid, wasn't properly cigested and gave him terrible pangs. This is not an uncommon case Dyspeptics don't get enough nourishment. They are generally thin and weak.

They may eat enough, but they don't digest enough. Much of what they eat turns into poison. If this keeps on there's no telling what disease they may get next. That's why it is best to take Shaker Diseastles. Cordial. gestive Cordial, as soon as symptoms of in-

digestion appear.

Broiled Tomatoes.

Cut the tomatoes in halves, sprinkle the inside of the slices with fine bread crumbs and pepper and salt. Place them in a double broiler and broil over the fire for ten minutes, having the outside next the fire. Carefully slip them on a hot dish (stone china) and put bits of butter here and there on each slice. Put the dish in the oven for ten minutes and then serve, or, concludes Miss Parloa, if you have a range or gas stove, brown before the fire or under the gas.

"Away With Melancholy,

And bid dull care avaunt," sounds very well to verse, but if you have a case of the "blues" caused by indigestion, with billous pess added on as extra horror, you cannot say bey! presto! and thus insure the departure of those abominable twins. The "proper caper" when thus troubled, is to seek the aid of Hostetter's Stomach Bitters. Thereafter you will will speedily digest with ease and eat with appetite, and your liver will reassert its right to regularity. Not only this, you can retire without a horrible dread that the Washington monument will—in dreams—impose itself upon the pit of your stomach. If you feel premonitory symptoms of chills and fever, idney trouble, or rheumatism, summon the litters to the rescue without delay, "lest a vorse thing betail you." A feeble condition of the system is more speedily changed on a vigorous one by this fine tonic than by any other medicinal agent in existence. A wineglassful three times a day.

Against Road Racing.

Chairman Mott of the League of American Wheelmen racing board is out in a communication against cycle road races. He says the original plan of advertising the givers of prizes has gradually been eclipsed and only the various race "committees" know what manufacturers have been generous. Continuing, he says:

"Road races, too, do more to bring cycling into disrepute than any other one thing. It is a lawless proceeding anyway. Of course, the best highways are chosen, and up and down these from 50 to 150 riders go tearing along at a pace which threatens their own safety and that of all others who happen to use that road. Consequently special laws are provoked, which apply every day and to all-wheelmen. The enor-mous crowds of wheelmen who collect to see these events, some of them irresponsible and unthinking people, become reckless with the power of sympathizing multitudes and occasionally do some outrageous acts to horses and hersemen who presume to use a public road on that day. Harnesses have been cut, carriages tern to pieces and drivers have been beaten in the wild excitement of the moment. All this is very damaging to the interests of cycling.

May Go to Henley.

Philadelphia carsmen are now talking about sending the crack eight of the Pennsylvania Barge club to the Henley regatta next year. The eight rowed in such magnificent form at the national regatta that it is locked upon as by long odds the fastest crew of finished oarsmen that has ever competed on the Schulykill. James Ten Eyck, the old time professional carsman and father of the winner of the diamond sculls at Henley, said, after reviewing the senior eight race, that the crew was perfection itself in body and blade work, and that it could have walked away from the best eights in England.

Awful Experience With Heart Disease That Dr. Agnew's Cure for the heart works like magic, and cures is proven by the tes-timony of Mr. L. J. Law, Toronto, Can.
